

JHB427 design detail

This is a project I am sure you will have lots of making for the little pirate in your life.

Although it is a reading pillow, you can also use it to store the little one's pyjamas in, so this project has got more than one use. The hull of the ship is a pocket where the favourite story book can be kept in.

The finished size of the pillow is approximately 14 inches (35 cm) wide and 16 inches (40 cm) high.

The picture of the pirate ship is built up through 6 blocks and have appliqué sails and some stitch detail to complete the picture.
