

JHB436 design detail

Enjoy your lunch all year round with the feeling of spring in the air.

This set is a handy cooler that you can make with or without the cooler lining in case you wish to use the container for other purposes. Separate securing stitches secure your cooler lining for additional support.

The set also comes with a handy pouch in which you can add a small gell cooler sachet or cutlery. The finished size of the cooler measures approximately 7 inches wide (18 cm), 9,5 inches (24 cm) long and 3,5 inches (9 cm) tall. It fits up to a 2 litre ice cream tub that we get here in South Africa.

The set also comes with a handle that you attach to the lid to carry your cooler.

This is an in the hoop project which gets assembled on your normal sewing machine.
