

### JHB476 Design detail

These bags are handy for kids as well as adults so they make awesome gifts or just as a treat to yourself. This set consists of two bags and comes in two different quilting detail. This is an in the hoop project where the various panels are made separately and then joined on your normal sewing machine to form the bag. You have the optional choice to do a zip back panel or a panel without the zip. I have included into the set a matching panel without the zip for each bag. The finished size of the bag is approximately 8 inch (20 cm) tall and 4,5 inch (11,5 cm) wide.
