These designs are free standing. Use your favourite water soluble stabilizer. I have the best results with Vilene (one layer). Hoop the stabilizer and embroider the design. Depending on your machine, you might need to slow down the speed. Always use sharp needle to avoid thread breakage. After embroidering the designs, soak them in the water but not too long to keep some stiffness. Lay them flat on towel or between two towels or soft material, iron while they are still a little bit damp.
